SOUTHERN'S DIVIDEND.

Annual on Preferred Steek. of 21/2 per cent. on the preferred stock. payable Oct. 31. This is the second half yearly dividend on the Southern's preferred shares. It was due in August, but the property would have returned to the direct control of its stockholders. This dividend was, therefore, deferred pending the approval by a majority of the stock of a proposition to continue the voting trust for five years longer.

More than two-thirds of the Southern's

stock has been turned over to J. P. Morgan & co. in assent to a continuance of the voting trust. The stock thus filed has been

| Voting trust. The stock thus filed has been stamped as assenting stock and the Stock Exchange committee has listed it separately. Samuel Spencer, president of the Southern Railway system, who has been in Europe for several weeks, sails from Liverpool for New York to-morrow.

| FINANCIAL NOT S. | The Southern Railway Company has declared a semi-annual dividend of 2', per cent on its preferred stock, payable out 2s. The Pittsburg Coal Company has declared a ouarterly dividend of 1', per cent, on its preferred stock payable out 2s. The Six doesn't. It may be the best perferred stock payable out 2s. The Six doesn't. It may be the best preferred stock payable out 2s. The Six doesn't. It may be the best folks think it is. But if it isn't it ought to be. It puts a premium on brains and pays the prenium. It establishes a quarantine against mediocrity and maintains it. Its staff is the highest paid of any newspaper staff in the world. They are at work in every quarter of the globe and the best products of their brains are found in The Six.—Adv.

by the belief that the coal strike was approaching its end. The sole possible foundation for the belief was the conference between Senators Platt, Quay and Penrose and the labor leaders; and an indefinable impression spread through Wall Street that this time the conferences would amount to something. The impression was heightened by the knowledge that a large block of Reading first and second preferred shares had been privately transferred by a market operator to a purchaser believed to represent the Pennsylvania Railroad Company. Many speculators asseried that if the Pennsylvania Ratiroad Company was in possession of the Reading property its management would be disposed to adopt a different policy toward the strikers than the one at present in force. Such an argument is, of ourse, preposterous. It quite leaves out of account the great question of the right of an owner of property to its possession and peaceable use, which has been raised in the present controversy as never before in our country; and it is based upon the unreasonable supposition that the management of the Pennsylvania Railroad Company-even admitting what is as yet extremely uncertain, that Pennsylvania interests are in control of the Reading shares-can be indifferent to the proper adjustment of such an issue. It may be stated authoritatively that the position of the owners of the coal mines has not changed and will not change, and that they regard the present struggle as a supreme battle for principle. The present interference of politicians in the matter is only another instance of the prolongation of the difficulty caused by the harmful meddling of outsiders. The coal stocks were naturally the feat-

ures of the speculation, all the high-priced coalers showing large gains, and the Reading, Erie and other stocks of the class making substantial advances. The railroad stocks were strong, though the substantial buyers of the last few days were absent, and it is evidently not the purpose of these interests to follow their purchases into a general advancing market. The news of the day was not quite so favorable as yesterday. The weekly reports of the Bank of England and the Bank of France showed diminished resources. The foreign exchange market was firmer, the strength being due, it was stated, to inquiry for remittances against the approaching London settlement. Chicago exchange on New York fell heavily, indicating an increase in the demands of the interior for funds. The declaration of the postponed dividend of 21/2 per cent. on the Southern Railway preferred shares was, of course, pleasing to the stockholders of the company, although there had been no doubt that such action was near at hand A notable rise in the Pacific Coast issues occurred after the announcement of an increase in dividends of from 4 to 5 per cent. upon the second preferred and common stocks of the company, but as these are stocks in which there is little general interest the market effect of the event was small Bankers declared that they saw no change in the money situation and that all views as to the future of the stock market and the relative cheapness of particular securities at present prices must be modified by the high rates for the use of money that would SOUTHERN RAH.WAY COMPANY.

SO Broadway, New York, Oct. 9, 1902.
A dividend of TWO AND ONE HALF PER
CENT, (2½%) out of accumulated income has this
day been declared on the PREFERRED STOCK
holders of record at the close of business October
20, 1902.
The preferred stock transfer books will close
at 3 P. M. on Monday, October 20, 1902, and will
reopen at 10 A. M. on Saturday, November, 1, 1902

March 8.51 8.49 8.5728.53
The rise in cotion was mainly due to a report that the coal strike would soon be settled and to the buoyancy of the stock market the feeling in cotion circles is that the strike studion and the money market conditions have seen the worst, that the strike will be over very soon and that there will be a gradual amelioration of the monetury stringency. Some of the German shorts were buying and the Wail Street pool was understood to be buying January. March and May. Spot interests bought January and are supposed to have soil May. W. P. Brown & Co. of New Orleans telegraphed: "Nineteen hundred, the year Telas made \$,500,000 bales, the average minimum temperature Galveston district that year, average \$9.91. Little Rock district that year, average \$9.92. Little Rock district that year at \$22 minimum. This year average, 54.88. Any one that is familiar with the growth of cotton can readily see that with such low temperature cotton will majure very slowly and in lots of places not at all. New Orleans—"The receiplis are relatively lighter and will continue so for some time, owing to the recent heavy rains throughout the built, combined with the apathy of spinners, who refuse to enter the market, as they discredit the Bureau, all of which naturally will curtail the movement. In the meanwhile the favorable meather and rising temperatures prevalent throughout the South have had a tendency to make many increase their crop estimates, and these factors in conjunction with the strained condition of finances in New York, the weakness of spots and lack of outside to exclude established since the Issuance of the Bureau report on Oct. 3. There is no doubt that the Realizing may temporarily depress values further, but we continue to think well of buying on all decided breaks, as we are daily drawing nearer the frost period, and spinners may take hold freely all ends to the article will quickly occasion an advance. Realizing may temporarily depress values fur
